

Life cycle of a Butterfly

Cut and paste each stage of a butterfly's life into the correct circle below. (If you don't have scissors and glue, just draw it!)

The Butterfly and The Plant

How much do you know about butterflies?

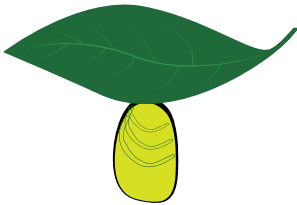

Draw a line to match each life stage to the habitat idea below.

The plant helps me by providing the green leaves that I eat as food.

I use the plant for shelter, and it probably doesn't even notice.

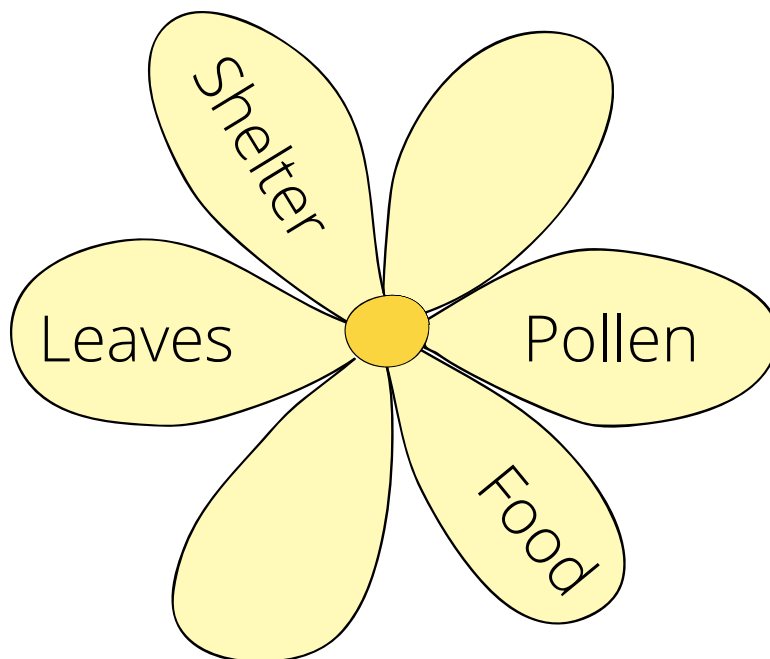

I help the plant grow by spreading pollen from flower to flower.

Words, words, words

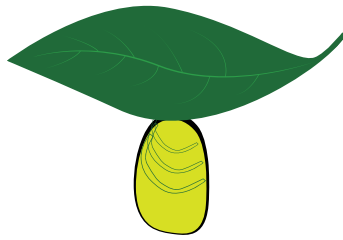

Read the words on the flower below.

Find and circle these words in the sentences above.

Are any of these words new to you? Make a big dot next to the new words on the flower.

The Butterfly and The Plant

What do you think?

Does a butterfly help or hurt a plant?

Write or draw your idea using what you know about the whole life cycle of a butterfly.
