

Kids are more motivated, focused, and curious when learning outside. They also remember more of what they learn.

Your kids can learn **outside** every other week with a simple activity.

- Activities encourage outdoor exploration and supplement classroom learning for elementary students.
- Content is provided by Eastern Shore informal education community partners.
- Skills and topics are linked to Virginia elementary learning standards.

Find the bi-weekly activities at these locations:

- Chincoteague Island Trail
- Eastern Shore Public Library (Accomac)
- ESO Arts Center (Belle Haven)
- Northampton Free Library (Nassawadox)
- Cape Charles Memorial Library
